## **Masstown**

90 km from Amherst, 76 km from Parrsboro, 75 km from Springhill, 60 km from Oxford, 37 km from Wentworth

## Classification Programs

### Forklift Operator

Learn how to operate a forklift.

3 days (approx. 25 hours) – Classification

Tuition Cost \$390.00 + HST

### Boom Truck (Class IV) Operator Training

This program provides students with the skills and experience necessary to become a competent and recognized operator.

1 week – Classification

Tuition Cost: \$2,525

### Skid Steer Loader Operator

Learn how to operate a skid steer loader.

1 week – Classification

Tuition Cost: \$909

### Loader Operator

Learn how to operate a loader.

2 weeks – Classification

Tuition Cost: \$3,939

### Backhoe Operator

Learn how to operate a backhoe.

3 weeks – Classification

Tuition Cost: \$4,444

### Dozer Operator

Learn how to operate a dozer.

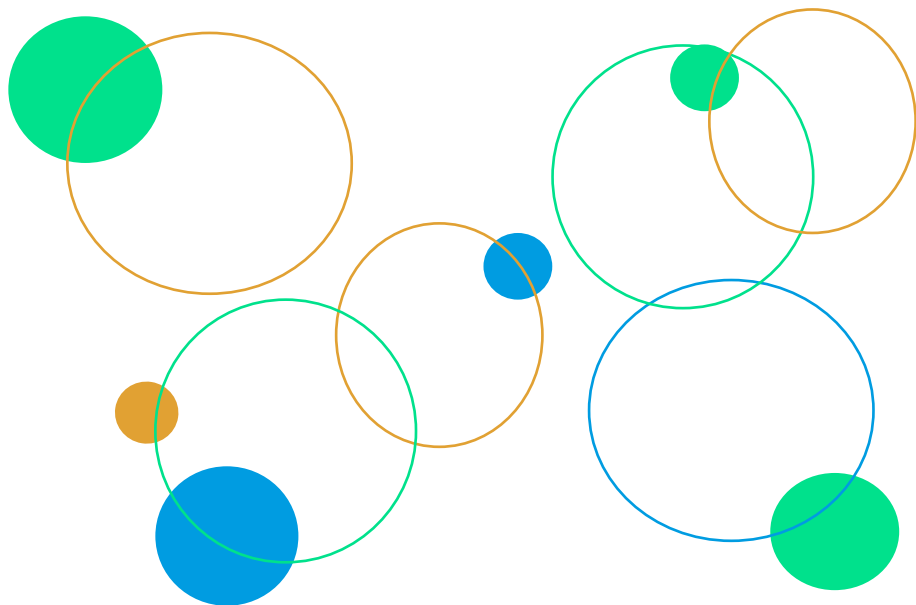

3 weeks – Classification

Tuition Cost: \$4,545

## Post-Secondary Programs offered in Cumberland County and adjacent areas 2019

Cumberland County has many different opportunities for post-secondary education. This booklet outlines the post-secondary programs offered in Cumberland County and adjacent areas for 2019. In addition to degree and diploma programs are other learning opportunities for skills upgrading. A list of other post-secondary institutions within the Maritime Provinces of Nova Scotia, New Brunswick, and Prince Edward Island is also included.

Tuition costs are per year and are based upon pricing available online. These are estimates and subject to change upon application of program. Programs listed may have limited seats or change from year to year. For up to date information check with the institutions that are listed here. Specific program information can be found online or by contacting the registrar's office.

# Dalhousie University Agricultural Campus

(902)494-8801 | [dal.ca/about-dal/agricultural-campus](http://dal.ca/about-dal/agricultural-campus)

## School Bus Driver

This program provides all of the skills required to start a new career as a school bus driver.

3 weeks – Classification

Tuition Cost: \$3,000

## Straight Truck

Whether you are looking to drive a straight truck, dump truck, waste management truck, water truck or more, the place to start is with a Class 3 license.

3 weeks – Classification

Tuition Cost: \$4,747

## Excavator Operator

Learn how to operate an Excavator

4 weeks - Classification

Tuition Cost: \$6,262

## Heavy Equipment Operator

Take the heavy equipment operator program in separated modules. This includes complete courses in Excavator, Loader, Backhoe, and Dozer. The program is taught in an active aggregate pit which simulates a true working environment.

12 weeks – Classification

Tuition Cost: \$15,000

## Tractor Trailer Internship Program

The tractor trailer program is designed for people looking to start a career in either long-haul or local truck driving.

12 weeks – Classification

Tuition Cost: \$10,149

## **Truro**

107 km from Amherst, 75km from Oxford, 90 km from Springhill, 90km from Parrsboro, 80 km from Pugwash, 50 km from Wentworth

## Extended Learning

### Commercial Queen Bee Production

This introduction will include discussions of honeybee genetics and development of a breeding program to meet individual objectives, as well as demonstrating the techniques and equipment required to produce healthy, productive queen bees.

Course – Varies

Tuition Cost: \$1,000

### Master Gardener Summer School

This summer school encompasses a week of great learning activities for the classroom and outdoors and is open to anyone with an interest in expanding his or her gardening knowledge and skills.

1 week (35 hours) – Course

Tuition Cost: \$360.50

### Pesticide Application

This program looks at the environmental fate of pesticides, pesticide resistance and application equipment.

2 weeks – Classification

Tuition Cost: \$1,115

### The Modern Beekeeper

The Modern Beekeeper will give you the skills and knowledge to expand your operation and prepare you for becoming a successful commercial beekeeper.

2 weeks – Classification

Tuition Cost: \$1,000

### Positive Animal Training

The Science of Applied Behaviors Analysis, has been developed for the student with the desire to understand animal behavior and use that knowledge while training.

12 weeks (Online) – Certificate

Tuition Cost: \$1,490

# Certificate Programs

## Animal Welfare

This program prepares students for careers in animal health and welfare by giving them expertise specific to this field. Students will understand ethical concepts surrounding animal use and will develop the skills required to assess specific situations and make sound recommendations for improvements in livestock care, handling, transportation and slaughter.

1 year - Certificate

Tuition Cost: \$10,857

## Aquaculture

Explore a range of aquatic species and the production systems required to rear them and understand their role in global food security. Students will gain awareness of, and demonstrated competency in, safe and humane handling of aquatic animals.

1 year – Certificate

Tuition Cost: \$10,992

## Genetics and Molecular Biology

The Certificate in Genetics & Molecular Biology provides a range of genetic and molecular biology theory and techniques for those interested in expanding their knowledge and skills beyond the introductory level or pursuing graduate studies.

1 year – Certificate

Tuition Cost: \$9,968

## Integrated Pest Management

The Certificate in Integrated Pest Management explores the importance of managing many different kinds of pests – insects, weeds, and pathogens - that affect our natural and agricultural ecosystems. It will emphasize learning about the ecosystem characteristics that favor the presence of pests and students will design and develop management plans to prevent and address a variety of pests using physical, mechanical, cultural, biological and chemical approaches.

1 year - Certificate

Tuition Cost: \$9,968

## International Rural Development

The Certificate in International Rural Development explores the importance of rural issues in a globalized context, especially the role of agriculture and rural communities. It will emphasize learning about small-scale agricultural systems, rural development, economic trends, and the leadership processes in farming & rural communities.

1 year – Certificate

Tuition Cost: \$9,498

## Specialization in Organic Agriculture

The opportunity to specialize in the expanding area of organic agriculture.

1 year - Certificate

Tuition Cost: \$809.40/course

## Sustainable Development

This certificate program is designed for senior undergraduate university students or graduate students who are interested in the research and practices in sustainable development. Building on the context of industrialization and globalization, as well as its related environmental and social problems, this program particularly focuses on viable business strategies, community development, and economic development policies at national and regional levels.

1 year - Certificate

Tuition Cost: \$10,150

## Technology Education Program

If you are a teacher of technology presently working in Nova Scotia, you can upgrade and diversify the technology background with the Certificate in Technology Education.

1 year - Certificate

Tuition Cost: \$9,982

# Post-Baccalaureate Certificate Programs

## Environmental Biology

The Post-Baccalaureate Certificate in Environmental Biology digs deep into how living organisms interact with their environment. It emphasizes learning about biodiversity, conservation, ecological processes, adaptation, and teaches you how to assess and provide skills and solutions to meet future environmental challenges.

1 year - Post Baccalaureate Certificate

Tuition Cost: \$9,968

## Food Bioscience

The Certificate in Food Bioscience will allow you to become specialized in the area of food and food components. You will study the chemical, microbiological, health, and regulatory aspects of foods, food ingredients, and nutraceuticals.

1 year - Post Baccalaureate Certificate

Tuition Cost: \$9,968

# Diploma Programs

## Business Management

Working in and out of the classroom, acquire business skills like accounting, writing and decision-making, while exploring topics relevant to one of the specialties of your choice.

2 years – Diploma

Tuition Cost: \$9,372

## Managed Landscapes

The managed Landscapes Technology Diploma program will provide you with hands-on preparation for an exciting and fulfilling career in landscaping and horticulture.

Experience skills-based training combined with an enriched theoretical program that includes opportunities to study and travel abroad.

2 years - Diploma

Tuition Cost: \$9,982

## Plant Science

Learn business and science in the context of social and environmental responsibility, using sustainable production systems. Acquire a theoretical knowledge of plants.

2 years - Diploma

Tuition Cost: \$9,968

## Pre-Veterinary Medicine

The focus on animal physiology, nutrition, behavior and welfare sets this degree apart from biology or zoology programs.

2 years- Diploma

Tuition Cost: \$3,164

## Veterinary Technology

This program is designed to prepare students to work as technicians with practicing veterinarians, researchers and other professionals who deal with animals in medical or scientific environments.

2 years – Diploma

Tuition Cost: \$10,857

# Post Diploma Program

## Small Business Management

This two-year, post-diploma program equips you with the business skills you need to take the next steps in your career as an entrepreneur, manager, business owner, and more.

2 years - Post Diploma

Tuition Cost: \$9,372

# Degree Programs

## Agricultural Business

The dynamic agricultural industry needs skilled managers to shape strategy, policy, and offer leadership to industry.

4 years – Degree

Tuition Cost: \$9,011

## Agricultural Economics

Learn to see issues from a global perspective and develop the leadership skills to succeed in fields including—but not limited to— the agri-food sector.

4 years – Degree

Tuition Cost: \$9,011

## Animal Science

Topics of study include animal physiology, animal welfare, breeding, environmental sustainability and the production of products like meat and eggs. Students are also able to focus on specific animals like cattle, sheep, poultry and mink.

4 years - Degree

Tuition Cost; \$10,200

## Aquaculture

Classroom learning in subjects like Fish Health, Aquatic Ecology and Aquacultural Engineering.

4 years – Degree

Tuition Cost: \$10,992

## Bioveterinary Science

Bioveterinary Science is designed for students looking for a head start in veterinary medicine. Eligible to apply to veterinary schools across Canada after just two years, carrying with you a solid science education and specialized training in animal care and science.

4 years - Degree

Tuition Cost: \$10,857

## Engineering

The opportunities in engineering are virtually limitless, allowing you to pursue a career in almost any field, in any industry, in any location around the world.

4 years – Degree

Tuition Cost: \$10,992

### Environmental Sciences

Learn to identify environmental issues and discuss their biological, chemical and socio-economic aspects. Then, evaluate and interpret theoretical and real-life examples presented in class. Later, head outside for the practical aspects of field sampling and lab analysis.

4 years - Degree

Tuition Cost: \$9,968

### Integrated Environmental Management

This program offers training in green science and technology. It's founded on four bio-resource pillars of Technology, Energy, Water and Waste. Gain the skills and experience to create immediate sustainable solutions and address our national and global resource management and food production needs.

4 years - Degree

Tuition Cost: \$9,968

### International Food Business

Graduates of this one-of-a-kind program will be awarded two degrees: A Bachelor of Business Administration from Aeres University and a Bachelor of Agriculture in International Food Business from Dalhousie.

4 years - Degree

Tuition Cost: \$9,011

### Landscape Architecture

From plant identification to understanding ecological systems, students learn in greenhouses, campus gardens, and design studios. Gain an environmental awareness and develop problem-solving skills necessary to succeed in interdisciplinary teams. You will also develop theoretical approaches to managing and designing landscapes.

4 years – Degree

Tuition Cost: \$9,982

### Plant Science

Plant Science is designed to provide you with a solid understanding of the ideas, achievements and methods in biological, physical and behavioral sciences. Acquire a very sound knowledge of plants, along with practical and life-long learning skills.

4 years – Degree

Tuition Cost: \$9,968

## Master's Program

### MSC in Agriculture

As the program is research centered, all students must complete a research thesis embodying original contribution in the thesis field of study. The thesis is defended at an oral examination.

2 years – Masters

Tuition Cost: \$11,304

## Doctoral Degree Program

### Doctor of Philosophy in Agricultural Sciences

The PhD in Agricultural Sciences program is research centered, and all students must complete a research thesis embodying original contribution in the thesis field of study. The thesis is defended at an oral examination.

3-4 years - Doctoral Degree

Tuition Cost: \$11,304

# Debert Flight Centre

(902)662-2228 | flytfc.ca

## **Debert**

92 km from Amherst, 60km from Oxford, 76 km from Springhill, 77km from Parrsboro, 84 km from Pugwash, 33 km from Wentworth

### Commercial Pilot License

200 hours of flight training along with 80 hours of flight school.

Tuition Cost: \$29460

### Private Pilot License

45 hours of flight training along with a 16 weeks program of flight school (40 hours).

Tuition Cost: \$10687.89

### Recreational Pilot Permit

25 hours of flight training.

Tuition Cost: \$6935

# Futureworx

(902)893-6859 | futureworx.ca

## **Futureworx Truro**

107 km from Amherst, 75km from Oxford, 90 km from Springhill, 90km from Parrsboro, 80 km from Pugwash, 50 km from Wentworth

## Certificate program

### Continuing Care

This program is of interest to those individuals who are seeking a rewarding career in the health care sector, where employment opportunities continue to grow.

1 year - Certificate

Tuition Cost: \$550

# Mount Allison University

(506)364-2269 | mta.ca

## Sackville

18 km from Amherst, 48 km from Springhill, 54 km from Oxford, 70 km from Parrsboro, 64km from Pugwash

## Degree Programs

### American Studies

The American studies program examines not only the history, economy, and government of the United States, but delves into its literature, music, and art – painting a complete picture of the country's governance, society, and culture, as well as its place in history and its impact on the world.

4 years – Degree

Tuition Cost: \$8,770

### Ancient Greek

The study of ancient Greek language and literature offers an opportunity to experience ideas and important texts in their original language.

4 years – Degree

Tuition Cost: \$8,770

### Applied Physics

Applied physics is a branch of physics that focuses on the technological or practical use of the discipline.

4 years – Degree

Tuition Cost: \$8,770

### Art History

Art history is integral to the study of art and visual culture. It provides valuable insight into history, philosophy, and the humanities in general.

4 years – Degree

Tuition Cost: \$8,770

### Astronomy

Astronomy is the study of the universe beyond the Earth's atmosphere. It explores the physics, chemistry, and evolution of objects like moons, planets, stars, nebulae, and galaxies, as well as features like supernovae explosions and cosmic background radiation.

4 years - Degree

Tuition Cost: \$8,770

### Aviation

Aviation is an interdisciplinary degree program combining professional flight training with in-depth studies in subjects relevant to the field of aviation — such as geography, mathematics, physics, and computer science.

4 years – Degree

Tuition Cost: \$8770 in year one, subsequent years are higher

### Biochemistry

Biochemistry is the study of living organisms at the molecular level.

4 years – Degree

Tuition Cost: \$8,770

### Biology

Biology is the scientific study of living things — their form, function, origin, and behavior. Disciplines include cell biology, ecology, genetics and evolution, and animal and plant diversity.

4 years - Degree

Tuition Cost: \$8,770

### Canadian Public Policy

Canadian Public Policy is an interdisciplinary program examining economic and social policy in Canada by combining studies in political science, economics, public management, and finance.

4 years - Degree

Tuition Cost: \$8,770

### Canadian Studies

Canadian studies seeks to analyze and explain the Canadian experience and to explore Canada's place in the world through Canadian-centered courses in a number of disciplines.

4 years - Degree

Tuition Cost: \$8,770

### Chemistry

Chemistry is the branch of physical science involving the study of the composition of substances, the ways in which their properties are related to their composition, and the interaction of substances to produce new materials.

4 years - Degree

Tuition Cost: \$8,770

### Classical Studies

Classics offers the unique opportunity to gain new perspective on our language, literature, culture, and political structure by examining their roots in ancient Greece and Rome.

4 years – Degree

Tuition Cost: \$8,770

### Cognitive Science

Cognitive science investigates how information is represented, processed, and transformed in both humans and machines. The program involves the interdisciplinary study of the mind and seeks to further understand what the mind does and how it works.

4 years - Degree

Tuition Cost: \$8,770

### Commerce

Commerce involves the study of a variety of business subject areas such as accounting, finance, marketing, and management.

4 years – Degree

Tuition Cost: \$8,770

### Computer Science

The study of computing ranges from hands-on applications to pure theory, and includes the analysis of algorithms, the study of computer architectures, compilers and operating systems, networks, and software engineering.

4 years – Degree

Tuition Cost: \$8,770

### Drama Studies

Drama studies shows us new perspectives, challenges us, and touches us – as our lives and the issues we face are reflected back in new and surprising ways.

4 years - Degree

Tuition Cost: \$8,770

### Economics

Much of the study of economics consists of examining the operation of market economies to discover regularities of behavior, ultimately in the expectation that through better understanding society will be able to remedy undesirable results and achieve better ones.

4 years – Degree

Tuition Cost: \$8,770

### English

The study of English literature is important both for the understanding of particular literary texts and for the insight it provides into how we interpret the world and our place in it. English helps you develop skills in research, analysis, critical thinking, interpretation, and persuasive writing.

4 years - Degree

Tuition Cost: \$8,770

### Environmental Science

Environmental science is an ideal discipline if you have both a strong interest in science and a concern for the environment. This interdisciplinary program is science-intensive and provides you with the foundation necessary to understand environmental issues from many different perspectives.

4 years – Degree

Tuition Cost: \$8,770

### Environmental Studies

Environmental studies helps you develop an understanding of the complex environmental challenges facing the world.

4 years – Degree

Tuition Cost: \$8,770

### Fine Arts

The study of Fine Arts helps you develop your artistic and creative abilities, and your ability to think critically, write, and speak about works of art.

4 years - Degree

Tuition Cost: \$8,770

### French Studies

French studies includes a variety of language, literature, and culture courses, which give you the opportunity to learn more about French, French-Canadian, and franco-phone cultures while developing your abilities in the language.

4 years - Degree

Tuition Cost: \$8,770

### Geographic Information Systems

GIS combines cartography with statistical analysis and database technology to capture, analyze, and present geographic information in a way that is useful to decision and policy makers.

4 years - Degree

Tuition Cost: \$8,770

### Geography

The study of geography develops an understanding of the principles of ecological and physical systems; of the cultural, social, economic, and political forces acting on those systems; and of the management, planning or scientific tools necessary to meet environmental challenges and opportunities.

4 years - Degree

Tuition Cost: \$8,770

### German Studies

In addition to learning the language, the German program will help you gain insight into the rich tradition of culture and literature in German-speaking countries.

4 years - Degree

Tuition Cost: \$8,770

### Hispanic Studies

Spanish is one of the most widely spoken languages in the western world. Hispanic studies introduces you to both the Spanish language and the culture of the Hispanic world.

4 years - Degree

Tuition Cost: \$8,770

### History

History helps us understand the individuals, groups, ideas, and institutions that have shaped our world. It encourages critical analysis and helps develop your communication and writing skills.

4 years - Degree

Tuition Cost: \$8,770

### International Economics & Business

International economics and business aims to help you develop an understanding of issues in the international business world.

4 years - Degree

Tuition Cost: \$8,770

### International Politics

The study of international politics examines the interactions between political and economic systems, cultural norms, environmental dynamics, and hierarchies of power at a global level.

4 years - Degree

Tuition Cost: \$8,770

### International Relations

International relations is the study of the relationships between countries and between governmental and non-governmental organizations. It examines the impacts of economic, social, technological, environmental, military, and political processes, as well as issues of justice, responsibility, and human well-being.

4 years – Degree

Tuition Cost: \$8,770

### Japanese Studies

Japanese studies offers an introduction to the main elements of the modern Japanese language – both oral and written – with opportunities to study the history, culture, economy, and geography of Japan.

4 years – Degree

Tuition Cost: \$8,770

### Latin

The study of Latin offers the opportunity to read ancient texts in their original form and to gain a greater understanding of how grammar functions.

4 years – Degree

Tuition Cost: \$8,770

### Mathematics

Mathematics has been around since humans first began using numbers. It has many faces, from practical uses of its statistical tools to theoretical studies of abstract relationships.

4 years – Degree

Tuition Cost: \$8,770

### Modern languages, literatures, and cultures

Modern languages, literatures, and cultures is an interdisciplinary degree that provides you with expertise in two languages and knowledge of a third — as well as to the literature and culture of the relevant communities.

4 years - Degree

Tuition Cost: \$8,770

### Museum and Curatorial studies

Museum and curatorial studies provides a wider understanding of the cultural production of museums and their communities.

4 years – Degree

Tuition Cost: \$8,770

### Music

The music program helps you develop into a well-rounded musician with experience in performance, theory, music history, and music education, as well as a sound basis in the liberal arts.

4 years – Degree

Tuition Cost: \$8,770

### Philosophy

Philosophy is the effort to understand the most basic human questions using analytical, verbal, and spatial reasoning. It is the exploration of how you can know what you think you know. It helps you challenge your own beliefs, consider others' points of view, and ultimately better know the world around you.

4 years - Degree

Tuition Cost: \$8,770

### Philosophy, politics, and economics

The philosophy, politics, and economics program brings together three fundamental disciplines that use different tools and methodologies to study the human experience, but are all concerned with the many, often conflicting, ideas of what is good for people and the challenges that arise when these varied approaches are put into practice.

4 years - Degree

Tuition Cost: \$8,770

### Physics

Physics seeks to describe the nature of the physical world. It includes the study of everything from subatomic particles to the essence of the universe as a whole.

4 years - Degree

Tuition Cost: \$8,770

### Political Science

The study of politics examines the nature and workings of power, state, and government; the rights and duties of citizenship; the limits and possibilities of collective political action; and the social, economic, and cultural formations that shape the life of the political community.

4 years - Degree

Tuition Cost: \$8,770

### Psychology

Psychology is the scientific study of the mind, brain, and behavior. The goals are to describe, explain, and predict behavior, allowing for scientific means of optimizing human development, abilities, and quality of life.

4 years – Degree

Tuition Cost: \$8,770

### Religious Studies

Religious studies examines the various religious traditions of the world in their historical and contemporary contexts.

4 years - Degree

Tuition Cost: \$8,770

### Sociology

Sociology is the study of people as they interact with one another in specific social, cultural, and historical contexts. It uses a scientific approach to study human behavior and the social influences that affect it.

4 years - Degree

Tuition Cost: \$8,770

### Women's & Gender Studies

Women's and gender studies is an interdisciplinary program that analyzes social, cultural, economic, and political issues from the perspective of gender.

4 years - Degree

Tuition Cost: \$8,770

# Nova Scotia Community College

# Other Learning Opportunities

## CAN-U

(902)661-0153 | [canu-ns.ca](http://canu-ns.ca)

CAN-U is an adult learning network that offers a variety of programs dedicated to helping adults throughout the county improve their individual literacy, essential and employability skills.

## Nova Scotia Apprenticeship

(902)424-5651 | [nsapprenticeship.ca](http://nsapprenticeship.ca)

Apprenticeship is a form of post-secondary education for both young and mature individuals who want to be certified to work in a skilled trade. It is a combination of on-the-job and technical training where skilled trades professionals (certified journeypersons) pass on knowledge and skills to learners (apprentices).

## Skills Canada – Nova Scotia

(902)491-4640 | [skillsns.ca](http://skillsns.ca)

Skills Canada – Nova Scotia (SCNS) is a not-for-profit organization that provides Nova Scotian youth with opportunities to explore skilled trades and technologies through a range of programming.

**Skilled Futures** is a collection of one-day career exploration events offering junior and senior high school students the chance to participate in interactive skilled trade and technology workshops. Workshops include topics such as technology, trades & tech, futures in energy, oceans, and women in trades.

Host an hour long **in-class presentation** or an **auditorium presentation** with Skills Canada - Nova Scotia to provide students with information about careers in skilled trades and technologies, youth apprenticeship, labour markets, SCNS programs and how to get involved.

The **Essential Skills Challenge** teaches students about the 9 Essential Skills (reading text, oral communication, numeracy, digital, writing, continuous learning, document use, thinking, and working with others) in a one-hour session.

Skills Canada- Nova Scotia offers disability services workshops for youth with disabilities to explore skilled trade and technology careers.
